PROFILE

Engineering student, interested in problem solving and learning new technologies. Looking to apply technical and theoretical knowledge in real-world projects. Motivated and curious, with the goal of growing in computer science while improving skills in analysis, design, and teamwork.

PROJECTS

Final-year project: Intelligent almond sorting system based on computer vision (IA, YOLOV11, CNN, Python, Arduino, Stepper motor, Micro-Stepper Driver)

- Almond classification and defect detection with 97% accuracy.
- Control of servo motors and a conveyor belt via Arduino to automate the sorting process

Summer internship project: Manual testing and development of an e-commerce website (NodeJs, Supabase, ReactJS, Tailwind CSS, HTML, Functional, Non-Functional and Exploratory Tests)

- Functional, non-functional, and exploratory testing using Postman and Thunder Client.
- Detected a multi-user session bug.

Student Evaluation Platform After Presentations (NodeJs, ReactJs, Supabase, Tailwind CSS, HTML)

- Replaced paper-based methods with an interactive web solution, reducing grade processing time.
- Admin panel allows teachers to define evaluation criteria and manage sessions.

Plateforme RH (NodeJs, ReactJs, PHP Laravel, CSS, HTML)

- Digitized archives (PV, courses) and automated member tracking.
- Set up reminder modules (birthdays, events) to boost club activity and member engagement.

Perfecto Collection E-commerce (NodeJs, ReactJs, Mongo DB, JWT, ExpressJS, Tailwind CSS, HTML)

- Built a full e-commerce platform using the MERN stack (MongoDB, ExpressJS, ReactJs, NodeJs) for optimal performance.
- Implemented JWT (JSON Web Tokens) for authentication.

SKILLS

Programming: HTML, Tailwind CSS, JavaScript, SQL, Python, Java, C++, NodeJs, ReactJs, Django
Tools: Git, Stackblitz, Postman, Supabase, Matlab, MongoDB, Google Colab

EDUCATION

Engineering Degree in Electronic and Communication Systems

09 / 2025 - Present

National School of Electronics and Telecommunications of Sfax (ENET'COM)

Preparatory Cycle for Engineering Studies – Physics & Chemistry

2022 - 2024

Preparatory Institute for Engineering Studies of Kairouan (IPEIK)

Scientific Baccalaureate – Good Honors

2022

Okba High School, Kairouan

VOLUNTEERING & ACTIVITIES

- 2nd Place in the Epilepsy Challenge 2026 Competition
- YouTuber (Over 2,000 Subscribers)
- Member, ENET'COM Junior Enterprise

Langue

Arabic

French (B2)

English (B2)
